

**FOR IMMEDIATE RELEASE**

## **CCS Europe N.V. German Branch Opens**

Strengthening business in Europe by increasing its presence in the DACH market

**Sint-Pieters-Leeuw, Belgium, 9 January 2025** – CCS Europe N.V. (hereinafter called "CCSE"), a leader in the machine vision lighting industry in Europe, has opened a new branch in Munich, Germany. By locating the branch in the heart of the manufacturing industry, CCSE aims to increase its presence in the DACH market and expand its offering of state-of-the-art machine vision lighting solutions to customers throughout Europe.

The German branch in Munich, which opened in one of Europe's major industrial hubs, will be staffed by a team of highly skilled professionals with in-depth expertise in machine vision lighting and deep understanding of the DACH market. By opening this branch, CCSE aims to closely support its DACH customers and focus on offering lighting solutions to resolve customers' problems.

Dr. Klaus-Henning Noffz, CEO of CCSE stated, "We are pleased to announce the opening of our new branch in Munich. This expansion will lead us to be actively involved in the DACH market and be closer to our customers. With the opening of this new branch, we will be able to offer unparalleled service and support, while contributing to the development of the machine vision industry in Europe."

Mr. Dirk Vermeersch, Chief Operations Officer of CCSE also commented, "We are pleased to expand our operations with the opening of our German branch. We will focus on offering lighting solutions and continue to resolve more of our customers' problems".

For more information about CCSE and the German branch, please contact [[info@ccseu.com](mailto:info@ccseu.com)].

About CCS Europe N.V.

As part of the CCS Group, CCS Europe N.V. upholds the commitment to excellence, offering the industry's most comprehensive portfolio of LED lighting solutions for machine vision systems. With a focus on innovation, quality, and customer satisfaction, CCS Europe is dedicated to advancing the field of machine vision through cutting-edge lighting technologies and lighting solutions tailored to the specific needs of customers.
